EXPERIENCE

L'Etoile (letu.ru), St Petersburg City, Russia — *Senior Android Developer / Android Tech Lead (Agile Release Train)*

JUNE 2021 - PRESENT

Letu.ru - The largest player in the Russian online retail market.

Key responsibilities:
- Led development of high-traffic Android app used by millions of users
- Drove Jetpack Compose adoption, reducing UI development time and improving consistency
- Migrated legacy Java code to Kotlin and modernizing the stack
- Contributed to Server-Driven UI and performance tuning
- Rest API design and integration
- Collecting metrics and analyzing performance
- Defined architectural enabler stories adopted across multiple teams
- Led technical refinements and defined implementation constraints
- Implementation of Kaspresso framework for automated testing
- Tracking of the SLA rate and NFR's fulfillment

Sberbank, St Petersburg City, Russia — *Senior Software Engineer (Android)*

AUGUST 2019 - JUNE 2021

Sberbank - The largest technological bank in Russia.

Key responsibilities:
- Development, support, and optimization of Android applications
- Working closely with clients to understand their needs and requirements
- Collaborating with cross-functional teams to ensure that projects were delivered on time

Sberbank, St Petersburg City, Russia — *Software Development Engineer in Test*

NOVEMBER 2017 - AUGUST 2019

Key responsibilities:
- Java test automation (Selenium WebDriver, Cucumber, Allure)
- Building up internal tools & frameworks to make the team more productive
- Improving the usability, reliability, and stability of the whole CI/CD pipeline
